

ENJOY... SELF DRIVING IN CHINA

Information & documents for dog | cat

CHINA IMPORT RULES AND REQUIREMENTS FOR DOG | CAT

Microchip:

A **Microchip is required for entry into China** and your dog | cat should be identified with the microchip. It is also strongly recommended for all international travel. An ISO compatible microchip may also be necessary for the countries of your destination before your entry into China, so always check the requirements and conditions of the countries of your destination before your departure.

EU-Pet Passport:

All dogs | cats must be older than 3 months and have a valid EU passport herein mentioned the microchip number, the date of the required vaccinations and the validity of the vaccinations.

All required immunizations and vaccines must be approved by an accredited and licensed veterinarian.

Rabies Vaccination & Certificate:

All dogs | cats must be older than 3 months and have an original Rabies Certificate and this certificate must state the microchip number, the date of inoculation and the validity of the vaccination. The rabies vaccine must be received more than 30 days from the day of arrival but within the last year.

This vaccine must be an inactivated vaccine.
